County politics will soon begin to boil. It would not surprise us if there are some announcements out by next week. It may be a little early, but remember it is the early bird that catches the worm.

The value of the 1913 crop in the United States in round numbers is \$10,000,000,000. \$6,100,000,000 largest and 3,650,000,000 worth of live stock. It is estimated that 52 per cent of the crops will remain on the farm and that 50 per cent of the live stock will also remain. The value of the 1913 crops is twice that of 1899 more than 1,000,000,000 over 1909 and substantially greater than 1912.

The value of the crop is distributed as follows: cotton 798,000,000; hay 797,000,000; wheat—the largest crop ever raised in this country, 610,000,000; oats, 440,000,000; potatoes, 228,000,000; tobacco, 122,000,000; barley, 96,000,000; sweet potatoes, 43,000,000; sugar beets, 35,000,000; rye 26,000,000; rice, 22,000,000; flax seed, 21,000,000; hops, 15,000,000; buck wheat, 10,000,000. In quantity of estimated production, the record has been broken by wheat, rice, sugar beets and beat and cane sugar.

The average in price of the fourteen principal crops average about 20.2 percent higher than 1912.

With this enormous yield of crops, the United States should be, and is, the most prosperous country in the world, and with proper legislation to protect the producer, we will prosper as no other country ever has.

So our good friend Dr. Bynum is writing about "Moral Issues" in the Jacksonian? Democrat? Well we will be—! Presume the next thing we hear, Satan will be delivering lectures on how to reach the Golden Gates.

The Jacksonian? Democrat? threw a fit because in some of the deposition taken in the Bond-Gore damage suit, relative to the character of the Plaintiff. It developed something about her first marriage being a military wedding and also something about an infant being buried in the garden (we presume it was not the garden of Eden) and some of the evidence got into print and the Jacksonian thinks it awful that a woman's character was about to be blackened. Well we have always been told that if you live in a glass house, you had better not throw stones. However, we are not surprised at the Jacksonian? having a spasm for if the Plaintiff in this case, should fail in her suit against Senator Gore, then the Jacksonian will fail in the mission for which it owes its very existence.

Woman Suffrage seems to be coming to the front in the East. the most important favor of Newcity government and the School Board in Chicago had to check water and reappoint Mrs. Young head of the city schools after they had kicked her out.

WHENEVER YOU NEED A GENERAL TONIC - TAKE GROVE'S

The Old Standard Grove's Tasteless chill Tonic is Equally Valuable as a General Tonic because it Acts on the Liver, Drives Out Malaria, Enriches the Blood and Builds up the Whole System. For Grown People and Children.

You know what you are taking when you take Grove's Tasteless chill Tonic as the formula is printed on every label showing that it contains the well known tonic properties of QUININE and IRON. It is as strong as the strongest bitter tonic and is in Tasteless Form. It has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Biliousness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A True Tonic and Sure Appetizer. A Complete Strengthenener. No family should be without it. Guaranteed by your Druggist. We mean it. 50c.

A HOME PROPOSITION OPPORTUNITY KNOCKS ONCE

Major George W. Littlefield, banker, land owner and cattleman of Austin, Texas, has decided to place on the market the famous Yellow House Ranch of 300,000 acres, located in the shallow water belt of the south plains of Texas. 70,000 acres of this tract, together with town site, has been surveyed and staked; not an acre over six miles from the Santa Fe Trans-Continental line of railway from ocean to Gulf. Grade finished and track will be completed to Littlefield by July 1st. Opportunity knocks once!

Its Up To You To Heed This Knock

Terms: Ten years time, 6 percent interest, small cash payment which will enable you to improve; if you raise and preserve your feed, we will sell you high grade Hereford cattle out of our famous L. F. D. or Yellow house herd for feeding; you pay for the cattle when sold.

Purchaser agrees to move upon said land and make it his home and place improvements there on to the value of \$500.00, said improvements to include a residence, and cultivate as much as 40 acres during 1913, we will waive cash payment and waive the interest until January 1st, 1914. By going on this excursion you will be able to buy on the improvement plan.

Terms on lots in the town of Littlefield: One-third cash and the balance in one, two and three years, with interest of 8 per cent, payable annually. This is a home proposition and an opportunity to get a home which will never be duplicated.

Fully \$3,000,000 Have Been Invested in the Shallow Water Alfalfa Belt in the Past Few Months

Rapid development will boost prices in this immediate section.

We will make the town of Littlefield a city of no little importance, being located in the largest level fertile farm belt in the world, only a few miles from the center of county on the Santa Fe main line. All lines of business and profession are needed. Success is sure. Investments will double in value quick. The greatest townsites buy on earth. The one opportunity to get a home. Nothing of the kind will ever be offered again on the American Continent.
